TESTIMONIALS

Review summary

"Fulfill your demands.A one **stop place** for all your career advises!"

"All are **queries** were answered very patiently and doubts clarified."

"This will definitely help him (my **nephew**) choose right career path."

"Me being a veteran of Indian Armed Forces have always been in awe about the psychological tests that all officer hopefuls face while undergoing the grueling SSB interview.

I for one believe that each and every young boy or girl should face this test at least once in a lifetime. Here you get an insight into what you actually are and where do you lack (only your perspective which may only be 30% of actuals).

After subjecting my son to the test by Academics and Beyond, I am sure that my son is better equipped to face the world with very thorough knowledge of his strengths and weaknesses. It wouldn't have been possible without the phenomenal debrief by Mr Srinath who was so convincing in opening the doors of clarity to my son. I think our society will benefit with more Srinaths who are focussed in their goal of making this world a better place by guiding the impressionable brains towards careers driven by positivity and happiness.

Wishing Academics and Beyond more and more success"

Name: Sudhir Kumar (Parent), Service Availed: PlanMyCareer

"It is definitely one of the best career counselling services I've come across (have been to a couple of counselling centers for my brother). Most consultancies are impersonal when it comes to the people who turn up for counselling. Mr.Srinath is genuinely interested in helping people who come to him for career advice. I would recommend anyone looking for a career and professional advice to go here. My personal experience with Academics and Beyond has been great."
